

# The Oba-ME

Obama's Impact on the New Generation Project

The Oba-ME Project is a hip, yet profoundly insightful look into the impact of this nation's newest and historic president, Barack Obama and his wife Michelle, through the eyes of the new generation.

The Oba-ME Project was produced for the City of Life Corp. Success Teens (2009). Within this compilation of 17 essays, we discover how these youth see themselves in both the president and the first lady, Michelle Obama.

The title, Oba-ME expresses the ideal that within the Obamas we find what is most noble and excellent within ourselves. Within Obama, I find Oba-ME.
